IPL DATABASE MANAGEMENT SYSTEM:

IPL Database management system is implemented using **HTML, CSS, PHP** and **mySQL** database is used for storage.

The Home page contains two buttons for the Admin and User section. When the admin option is selected, it redirects to the admin login page where the admin should enter name and password to proceed and view admin-homepage. The entered name and password values are checked with the values stored in the database, once the value matches it is redirected to admin-homepage. In the admin-homepage, admin can do various functions such as **ADD PLAYER, SCHEDULE, STADIUM** and even **DELETE PLAYER, SCHEDULE, STADIUM**. This page also contains a navigation bar which has Schedule, Players, Stadium, Points table.

When the user option is selected, it redirects to the user-homepage and it contains a navigation bar which has Schedule, Players, Stadium, Points table. The user can also view all the Teams included in IPL and their respective captain.

Here the new player Sheldon Cottrell is added to the database.

While entering data in add player html page if the admin misses any one of the field to enter value, then an error message is thrown.

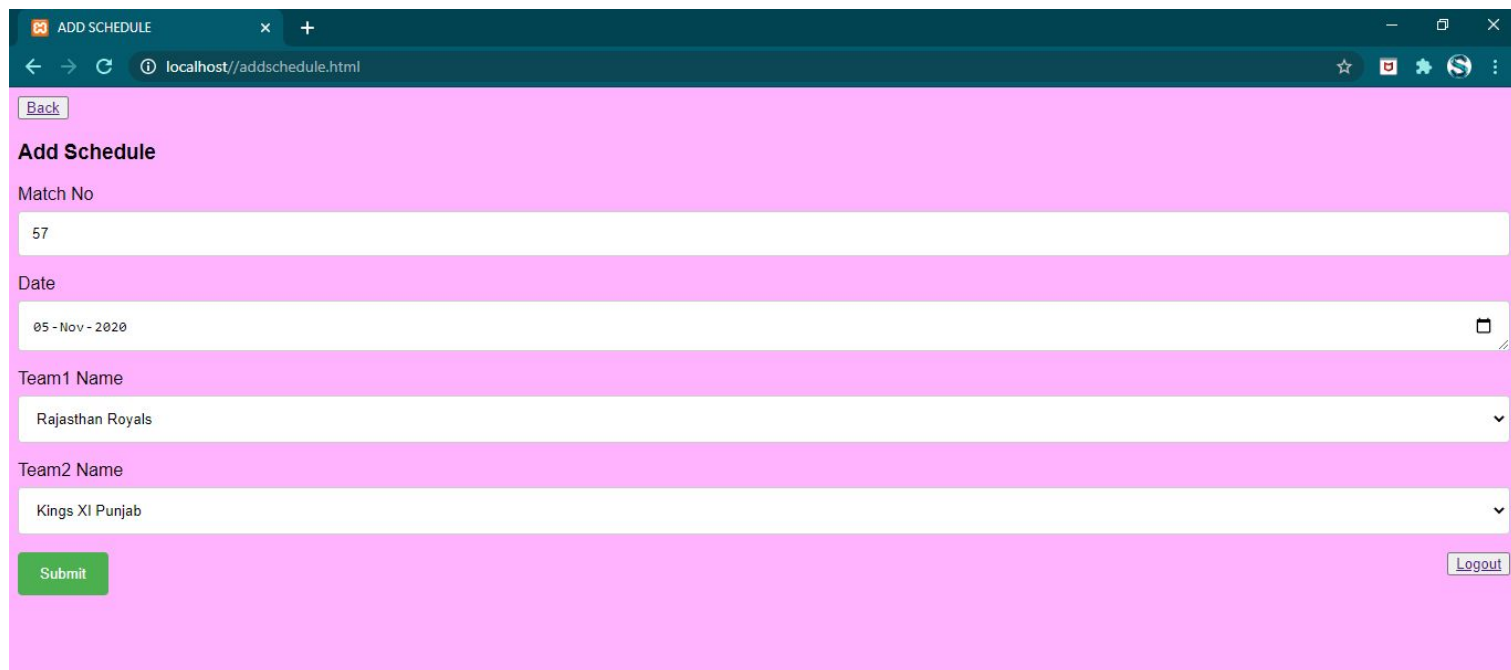

ADD SCHEDULE:

In add schedule html page, admin can add match schedules.

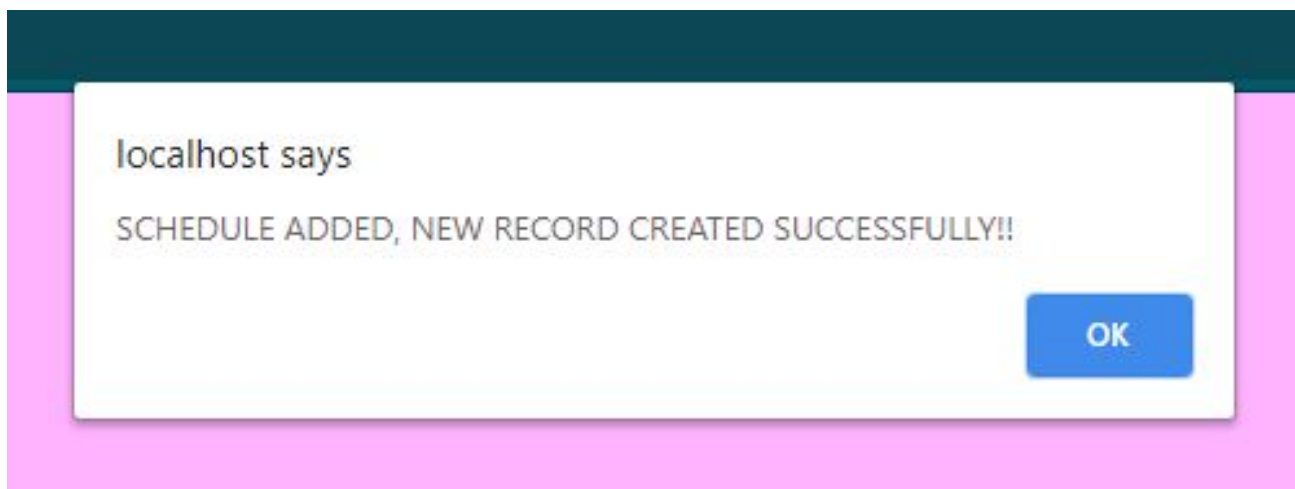

A screenshot of a web browser window titled 'ADD SCHEDULE' with the address bar showing 'localhost//addschedule.html'. The page has a pink background. At the top left is a 'Back' button. Below it is the heading 'Add Schedule'. The form contains four input fields: 'Match No' with a placeholder 'Match number..', 'Date' with a placeholder 'dd- - - - -yyyy' and a calendar icon, 'Team1 Name' with a dropdown menu showing 'Choose a Team', and 'Team2 Name' with a dropdown menu showing 'Choose a Team'. At the bottom left is a green 'Submit' button, and at the bottom right is a 'Logout' button.

When correct values are entered,

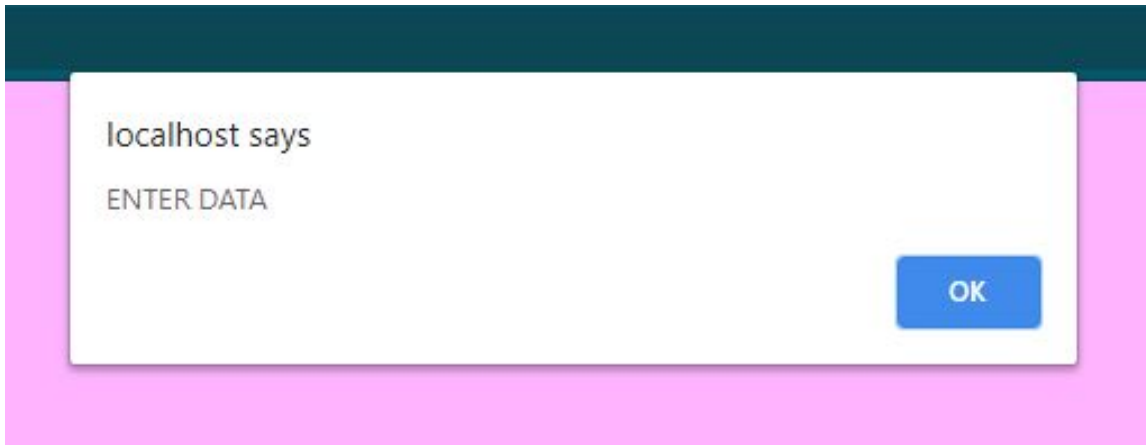

A screenshot of a web browser window showing a form titled "ADD SCHEDULE". The browser's address bar displays "localhost://addschedule.html". The form has a pink background and includes a "Back" button at the top left. The form fields are: "Match No" with the value "57", "Date" with the value "05 - Nov - 2020", "Team1 Name" with a dropdown menu showing "Rajasthan Royals", and "Team2 Name" with a dropdown menu showing "Kings XI Punjab". At the bottom left is a green "Submit" button, and at the bottom right is a "Logout" button.

When submit button is pressed, then a message stating new schedule added will be displayed.

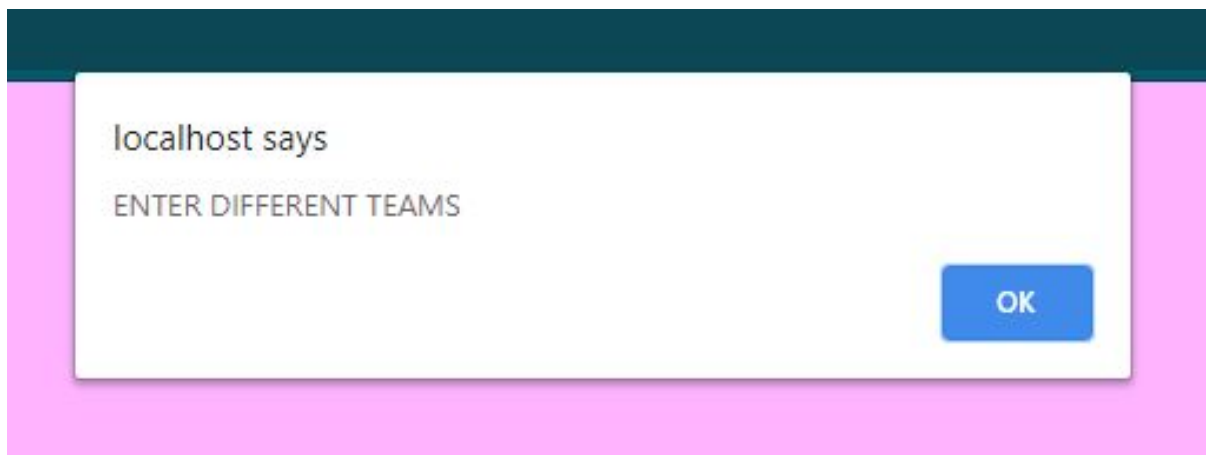

When any one of the values is missed out, then 'Enter data' message will be thrown.

When same team name is entered in both Team A and Team B such as:

A screenshot of a web form on a pink background. The form has two sections. The first section is titled "Team1 Name" in a dark font, followed by a white input field containing the text "Chennai Super Kings". The second section is titled "Team2 Name" in a dark font, followed by another white input field also containing the text "Chennai Super Kings". At the bottom of the form is a green button with the text "Submit" in white.

An error message is thrown, because the team cannot play to itself,

When new values are entered, it gets added to the database in the MatchSchedule table.

```
MariaDB [ipldb]> select M_id,date_format(Matchdate,'%d/%m/%Y') as Matchdate,Team_A,Team_B from MatchSchedule;
```
